Rosom Investments is a wholly owned Zimbabwean company registered and opened its doors for trading in 2004 as Manufacturers of Borehole Accessories Inspired by our clients to have a one stop shop, later extended our business to be retailers.

Our vision is to become the choice, reference and number one distributor and one stop shop for all borehole accessories and water storage tanks with an aim to expand regionally and internationally in the near future.

We produce high quality borehole accessories and water storage tanks, as our prices are both affordable and competitive. Our marketing strategy focuses on building long term relationships with our customers. Our mission is to provide customer satisfaction through providing value and unquestionable quality products at the right price.

Our customers are our bosses, they take the central focus of business. Hence satisfying their needs is fundamental to our survival and prosperity. Our goal is to be highly innovative in the marketing of our products and services to forge a long term relationship based on top quality products, at competitive prices timeously. Our customers give us the will to continue in business.
